SUBJECT: CONTINGENCY-13 PLAN PHILSOPHER KINGS

References: See Enclosure 1

1. PURPOSE

JCS Report on POST-CONTROL CONUS: RESTRICTED DISTRIBUTION.
Continuity-13 scenario involves the creation of a series of micro-states under control of leaders engineered for philosophical strength.

WATCH-TOWER ACTUAL –ACTIVATION REQUEST: JENGA EVENT – ROGUE TOPSY PROPOSE IMMEDIATE CLEARANCE. TARGET DATE 2046.

Hypothesis Overview: In failure-state conditions for RE-ESTABLISH, MILITARIZE, and WHEEL-2 contingencies, least-worst-option is accelerate/intensify social fragmentation. Under this scenario remaining CONTROL elements direct against social-cultural, media, and infrastructure stability nodes. US undergoes extreme fragmentation into micro, autonomous units.

CONTROL is re-asserted through the deployment of ideologically, biometrically controlled prepared leadership.

This document describes the prerequisite resource allocation and technology development to assess feasibility.

This scenario should be considered high-risk, t-speculative, C^3-I intensive; it represents a least-worst-case alternative to multiple/cascading failure events.

Critical Success Factors: In a highly-balkanized post-control CONUS social groups will revert to agrarian / meso-migrational-period structures where personal leadership characteristics determine eco-mil alignment.

Leaders with key attributes including extreme pragmatism, authoritarian, personal charisma, bio-superiority-markers, and individualist / monarchist tendencies will establish self-sufficient communities.

PROGRAM will take advantage of and co-opt this natural progression through preparation, training, sequester of capable leaders with the requisite attributes. Unlike naturally occurring leaders PROGRAM leaders will be loyal to, aligned with CONTROL.

CONTROL EVENT

In the event of a succession-grade EVENT, remaining control structures will implement JENGA PROTOCOLS:

- Monetary Credibility Gap: Shadow-Bank Run, Media Leak, Public De-Banking.
- Quarantine Engagement: MERSA, Influenza. Air/Mosquito-borne vectors will be popularized. Check-points established.
- Martial Law / Riot: Engage local LEOs in riot-control. Overwhelm fracture points, provide militarized support from controlled units.
- Internal Disruptors: Terror cells, racial war, majority-collaborators. Media support critical.

LEADERSHIP ROLLOUT

SEE ARTIFICAL HUMAN GENOME [KEY WORDS: CRISPR, HUM-EXPANSION, MAN-UP].

Precis: In order to manage neocameral microstates with continuity and sustainability over more than one generation the emergent orders will require philosophy. A governing philosophy with CADRE that is suitable to implement will be MAXIMAL PRIORITY in re-assembling civilization. As chaos favors the strong,

The JENGA PROTOCOL aftermath will involve widespread social collapse with high casualty rates and severe psychological impact. PHASE 2 will require an effective, coordinated LEADERSHIP ROLLOUT which will require specific high-value traits in the cadre.

These are:

- **Genetic markers for high-IQ:** triplet repeat marker (CTGB33)
- **Genetic markers for Pragmatism, Low-Empathy:** H3K4me3 chromatin marks
- **Genetic Markers for Rational Action:** UNIDENTIFIED (SEE SUBJECT CASES)
- **Genetic Markers for Fearless Dominance & Non-Impulsive Antisociality:** UNIDENTIFIED (SEE SUBJECT CASES)

POST-CONTROL PATTERN: MICRO-STATES

The sustainable POST-CONTROL pattern will seek an island of stability in terms of defense capability, economic promise, and resistance to corruptive forces (Democracy, Victim-Sympathy Gaming, Non-Capability-Related Equality, Feminism Radical or Otherwise, etc.)

These states will need to have social pressures towards 1-generation rulers with a heavy emphasis on philosophical foundations. They will engage in free trade, have no concept of innate human-rights, and zero-legislative empathy. PLAN will require a CADRE of these rulers ready to assume command post-EVENT.

SUBJECT CASES

In two key dimensions the genetic markers for the required aptitudes are INDETERMINANT. PLAN has identified candidate donors for genetic material with the required traits. UPDATED PLAN for collection of genetic material APPENDIX C.

Subject	Notes	Disposition
Land, Nick	Nihilist.	Expatriated. Foreign assets can collect.
Yarvin, Curtis	Monarchist. Disruptor.	Disruption largely nullified by social immune-system.
Anisimov, Michael	Disruptor.	Low Grade. Limited approach.
Steves, Nicholas	Racialist.	Viable. Not preferred.
Mark Citadel [aka?]	Orthodox Militant.	Maybe.
Scott Alexander / Yvain[aka?]	Rationalist.	Destructive Altruism Complex--but superior to alternate-in-category Yudkowsky
[Unknown] aka [Last Psychiatrist]	Disruptive Rationalist.	Probable traits match from EUCLID Net-seive. Examine for possible match.

OPERATIONAL DIRECTIVE: Acquire targets immediately. Extract stem-cell tissue.
SUBJECTS EXPENDABLE.

2. **APPLICABILITY** This instruction applies to the Office of the Secretary of Defense (OSD), the Military Departments, the Joint Chiefs of Staff, the Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities within the DoD (referred to collectively in this instruction as the “DoD Components”).
3. **POLICY.** This instruction implements DoD policy, pursuant to References (c) and (d), that a Managers’ Internal Control Program be established to review, assess, and report on the effectiveness of internal control (IC).
4. **RESPONSIBILITIES.** See Enclosure 2. 5
5. **PROCEDURES.** See Enclosure 3.
